

SAUG National Summit 2016 | Agenda

Day 1 | Monday, 5 September

Time	Session type	Breakout A HR & Payroll L3 Ballroom A	Breakout B Financials L3 Ballroom B	Breakout C Technology L4 Room 5	Breakout D Customer & Supplier L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovations L4 Room 1
8:00 am – 9:00am	Registration (L3)						
9:00am – 9:15am	SAUG National Summit 2016 – Welcome (Ballroom A)						
	Andrew Ritchie, Chairperson, SAP Australian User Group						
9:15am – 10:00am	<p>International Keynote: Making the right strategic decisions - How the digital economy is impacting the SAP Portfolio</p> <p>Hala looks after the global SAP product and solution portfolio and has to continually look at the trends impacting IT and SAP, to make the right strategic decisions about what products to develop or discontinue. In this presentation she will look at the trends impacting the SAP product portfolio including technology, the digital economy, connectedness and innovation. She will focus on what she sees as the emergence of a strong digital, data core or platform and the growth of innovative, agile solutions around that core addressing specific line of business or industry needs. Gain valuable insights into how SAP is developing current and future solutions to meet these trends and how you can make the right strategic decisions to take advantage of these growing opportunities.</p> <p>Hala Zeine, Senior Vice President, SAP Portfolio and Commercialization, SAP SE (Germany)</p>						
10:00am – 10:45am	<p>Keynote: (Platinum Sponsor) Implementing SAP on Public Cloud, Hybrid Cloud or Private Cloud?</p> <p>Lenovo has now implemented more than 5,000 SAP HANA appliances across all environments including Public Cloud, Hybrid Cloud and Private Cloud. As one of the most frequent questions asked by members is; what is the optimum path or deployment option for SAP HANA, hear from Lenovo and its customers about how they have successfully implemented SAP and SAP HANA. Find out what are your key technology choices today and in the future that will drive successful, cost effective deployments.</p> <p>Rob Makin, Director - Lenovo Data Centre Group, ANZ Andrew Silvers, Alliance Manager - Lenovo Data Centre Group, ANZ Michael Dayaseela, SAUG SIG Lead – HANA Melbourne, Manager Business Intelligence, Village Roadshow Jeff Durham, Chief Operations Officer, Viatak Technology</p>						
10:45am – 11:15am	Morning break						

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HR & Payroll L3 Ballroom A	Breakout B Financials L3 Ballroom B	Breakout C Technology L4 Room 5	Breakout D Customer & Supplier L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovations L4 Room 1
11:15am – 12:00pm	Breakout sessions 1	<p>1A: Transforming HR and moving to the cloud – the Origin Energy experience</p> <p>Origin Energy embarked on a journey some time ago to move its HR systems into the cloud. In this presentation, Nikki from Origin will discuss the journey, the pain points that led to the journey and experiences so far, challenges and the transformation of HR at Origin Energy. She will also discuss:</p> <ul style="list-style-type: none"> Improving processes and systems to drive HR transformation The 3 ingredients – Systems, Processes & People Challenges, mitigation and lessons learned One year on from go-live The future of Origin's cloud journey <p>Nikki Symonds Head of People & Culture Systems Development & Operations Origin Energy</p> <p><i>Cloud HR</i></p>	<p>1B: International Better planning and analytics – in half the time</p> <p>Gain an understanding of the critical design factors to ensure 'fitness for purpose' in a planning, forecasting, budgeting, and analytics solution. How do you ensure business control and why is this so important? How do you provide business agility? How do you reduce lag in decision making? How do you avoid running into brick walls in planning platform roll outs? What enables and optimises dynamic modelling? Why should you think about a unified planning and analytics environment and what does that really mean? And why is technical complexity such a barrier to decision making? Hear how the Apliqo C3 solution answers these questions and unleashes the decision making potential of your SAP system.</p> <p>Daniele Tedesco CEO, Apliqo AG & General Manager, Cubewise DACH Region (Germany, Austria and Switzerland)</p> <p><i>Financials, Forecasting</i></p>	<p>1C: What are the innovations and implications in hybrid cloud for SAP that matter to me!</p> <p>Gartner predicts that nearly half of large enterprises will be engaged in a combined, public/private cloud operation, commonly referred to as "hybrid" by the end of 2017. In this session we will explore the SAP application, HANA and other platform specific innovations in orchestration, automation, management, security and other key requirements. We will peel back the layers of technical complexity and highlight the ease of adoption of hybrid cloud to realise the true value and potential for you.</p> <p>Nathan Vandenberg General Manager - Data Centre Business Unit Dimension Data</p> <p><i>Hybrid Cloud</i></p>	<p>1D: Building the next generation digital customer platform</p> <p>Frasers, a leading developer of residential communities and commercial property, lacked a robust, scalable digital platform, so its marketing teams could only deliver a fragmented digital response while facing substantial disruption. This presentation will show how they leveraged their existing SAP investment to develop an integrated customer experience – improving efficiency and outcomes for sales and marketing teams while better engaging with customers across the lifecycle.</p> <p>Sumeer Shoree Chief Information Officer, Frasers Property</p> <p><i>Digital Customer Engagement</i></p>	<p>1E: Create the agile ERP - plan, test and accelerate rollouts, collaboratively from the cloud.</p> <p>Learn how you can leverage Panaya CloudQuality™ Suite through each phase of your S/4 HANA or SCM project. See how to drastically increase productivity, enable real time reporting, while providing a user friendly interface. Not forgetting security and compliance; analyse your SAP custom code and identify and prioritise all risks and issues and learn how to address them, providing full transparency into all security & compliance gaps and their corrections.</p> <p>Michael Samootin, VP ANZ, Panaya</p> <p><i>Agile ERP</i></p>	<p>1F Unleashing the power of Digital to drive value in a world where the customer is in charge</p> <p>Dima Ceban, SAP Head of Industry Value Engineering, will share insights on how organisations across ANZ are approaching their digital business transformation initiatives, as well as findings from the recently released 2016 Australian Digital Experience Report which investigates the correlation between digital experience and business outcomes, and what Australian consumers value most when interacting with brands digitally.</p> <p>Dima Ceban Head of Industry Value Engineering, SAP ANZ</p> <p><i>Digital transformation</i></p>
12:00pm – 12:05pm	Transition						

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HR & Payroll L3 Ballroom A	Breakout B Financials L3 Ballroom B	Breakout C Technology L4 Room 5	Breakout D Customer & Supplier L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovations L4 Room 1
12:05pm – 12:50pm	Breakout sessions 2	<p>2A: Ensuring SAP project success with optimised Change Management Feedback from recent large scale SAP projects suggests that the most critical factor determining success is people; their use of the new system and how the process of change was managed. If cultural, change and user issues have not been addressed or management in an optimum way the project will not deliver anywhere near the expected benefits. Sue, a leading researcher and educator of change managers for SAP projects will help you to develop a strategy and a checklist of change management issues to address as well as where to find resources to ensure your SAP project is a success.</p> <p>Dr. Susan Foster SAUG SIG Lead, Organisation Change and Training & Senior Lecturer, Monash University</p> <p><i>Change management</i></p>	<p>2B: <i>Keynote</i> The business case for moving to S4 HANA and a more mobile workforce - the Tomago story Tomago Aluminium is one of the largest aluminium producers in Australasia. As part of an ongoing efficiency drive Tomago identified significant benefits that could be achieved by modernising its SAP environment and re-platforming on a cloud-based infrastructure. Tomago also introduced new mobile enabled applications, using SAP Work Manager and SAP Inventory Manager to provide improvements to field plant maintenance and inventory management – deploying the entire system through a partner managed cloud subscription service. Hear how Tomago built its business case to move to a contemporary SAP platform that includes SAP S/4HANA Simple Finance, and a more flexible licensing model.</p> <p>Steve McIntyre Chief Financial Officer Tomago Aluminium</p> <p><i>S/4HANA, Transformation</i></p>	<p>2C: How Lion is leveraging the HANA Cloud Platform to bring innovation to life. Lion, one of Australasia's largest food and beverage companies is undergoing a major transformation in all its business processes. Learn how Lion IT is delivering simple, agile and value driven solutions, through design thinking and innovation on the SAP HANA Cloud Platform. As well, gain insights into the further possibilities for this technology.</p> <p>Tim Reid Solution Architect Lion</p> <p><i>HANA Cloud Platform</i></p>	<p>2D: Simpler procurement with Ariba Light – the AusNet Services Experience Cor will show how AusNet services is simplifying its procurement processes with the new functionalities from Ariba Light. He will discuss AusNet's experiences and focus on:</p> <ul style="list-style-type: none"> • Where does AusNet utilise Ariba Light? • What were the implementation lessons? • What benefits have been achieved? <p>Cor Van der Scheer Procurement Processes & Systems Manager AusNet Services</p> <p><i>Procurement, Ariba Light</i></p>	<p>2E: <i>Mini Workshop</i> Best Practices for building SAP NW Gateway Services (Part 1- Overview) Gateway Services are everywhere - but there is little information on how to build them, the traps to avoid and the best design patterns. In this workshop you will learn how to look out for the common pitfalls and how to avoid them. We will cover principles and techniques for service design, code reuse, optimising performance and flexibility that will help you build robust Gateway services and help you bring your Fiori apps to reality sooner.</p> <p>Graham Robinson SAP Mentor & Principal Consultant Yelcho Systems Consulting</p> <p><i>Netweaver</i></p>	<p>2F: Transforming Public Sector processes with the S/4HANA based Model Agency This presentation will provide an update on the SAP Model Agency project including business processes covered, system build progress, and plans for the next phase. We will also share insights on Digital Government, as well as the implications for Local Councils and Public Sector Organisations</p> <p>Phillip Merrick Enterprise Architect - Public Sector SAP Australia</p> <p><i>Digital government</i></p>
12:50pm – 1:50pm	Lunch						

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HR & Payroll L3 Ballroom A	Breakout B Financials L3 Ballroom B	Breakout C Technology L4 Room 5	Breakout D Customer & Supplier L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovations L4 Room 1
1:50pm – 2:35pm	Breakout sessions 3	<p>3A: HCI – what is it and why should you consider using it...or not! The integration of on-premise and cloud HR systems is a key concern of many SAP users. HANA Cloud Integrations promises to facilitate the integration of data and business processes across on-premise and cloud applications (or cloud to on-premise integrations) in a simple, reliable and real time manner. Chris has done the hard yards and will show you:</p> <ul style="list-style-type: none"> • Features and Service, what does SAP HCP IS offer? What is it not? • Infrastructure: what do you need to make SAP HCP IS run? • Typical Scenarios, demo How should you use SAP HCP IS? • Next Steps: how to get started, Skills needed <p>Chris Paine SAP Mentor and Chief HR Geek Discovery Consulting</p> <p>HANA Cloud Integration</p>	<p>3B: Harmonising UX across S/4HANA (for Cloud, on-premise, hybrid) Want to minimise change management turbulence for your people when transitioning from old transactions to new apps? From on-premise to Cloud or hybrid? Learn what S/4HANA brings to harmonise the user experience across technologies – Fiori, Personas, WebDynpro - and cloud solutions – HCP, SuccessFactors, Concur, etc. Still on the journey to S/4HANA? Understand what you can use now to smooth the journey for your people</p> <p>Jocelyn Dart SAP Mentor & UX Specialist SAP Australia</p> <p>S/4HANA UX</p>	<p>3C: Five things you should know before migrating to HANA Benefit from the invaluable insights and lessons learned from UGL's migration to HANA, as they share their top 5 tips that will help you in your journey to HANA:</p> <ol style="list-style-type: none"> 1. Infrastructure planning and sizing is key. 2. Don't believe everything you read. Practice! Practice! 3. Done with EHP7? HANA migration is a breeze. 4. Not all resources are created equal. 5. Change is upon us. FOMO is real. <p>Nadeera Hoosen ICT Solutions Delivery Manager, UGL Limited & Jamie Grande SAP Technical Manager UGL Limited</p> <p>HANA migration</p>	<p>3D: HANA - driving digital transformation and optimising client services at GHD Hear how SAP HANA is driving the digital transformation at GHD, one of the world's leading professional services companies. Jorge will discuss how HANA has revolutionised the internal BI, as a single source of truth, as a Data Hub for all applications, in external client services and as a driver of new revenue stream services – all in a non-SAP centric company</p> <p>Jorge Lizama Data/BI Solutions Architect GHD</p> <p>HANA, BI, Client Services</p>	<p>3E: Mini Workshop Best Practices for building SAP NW Gateway Services (Part 2- In depth) Continuing from part one of the mini workshop, this session will be a more in depth look at Gateway Services, how to build them, the traps to avoid and the best design patterns. Learn how look out for the common pitfalls and how to avoid them. Learn principles and techniques for service design, code reuse, optimising performance and flexibility that will help you build robust Gateway services.</p> <p>Graham Robinson SAP Mentor & Principal Consultant Yelcho Systems Consulting</p> <p>Netweaver</p>	<p>3F: Reimagine Analytics for the Digital Economy with SAP BusinessObjects Cloud Combining planning, business intelligence, and predictive analytics in a single cloud-based solution, SAP BO Cloud simplifies planning and analysis providing you with the ability to analyse data and collaborate in real-time. Learn how SAP BO Cloud and the Digital Boardroom can provide a single source of truth about a company's most important business metrics, enabling business leaders to monitor and simulate the impact of potential decisions on financials and operations.</p> <p>Andreas Kral Centre of Excellence BI & Predictive Analytics SAP Australia</p> <p>BO Cloud Analytics</p>
2:35pm – 2:40pm		Transition					

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HR & Payroll L3 Ballroom A	Breakout B Financials L3 Ballroom B	Breakout C Technology L4 Room 5	Breakout D Customer & Supplier L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovations L4 Room 1
2:40pm – 3:25pm	Breakout sessions 4	<p>4A: From paper to people - the SuccessFactors journey at Woolworths Limited</p> <p>It's not every day that a company of almost 200,000 employees embarks on a green-field journey with SuccessFactors and SAP Payroll. But from the very beginning, Woolworths Limited focused its efforts on using technology as a catalyst for much broader change. Find out how the implementation project was the enabler for transforming not only the HR capability, but the very relationship between manager and employee, as well as:</p> <ul style="list-style-type: none"> • The underlying transformation program • Process and benefits to employees • People strategies • Key lessons learned <p>Greg Taylor HCM Change Manager Woolworths</p> <p><i>SuccessFactors, Payroll</i></p>	<p>4B: How to harness mobile and web apps to accelerate and control SAP based financial processes</p> <p>Learn how Zimmer developed an end-to-end mobile process for its finance, sales and management teams throughout the region using a combination of applications and tools. Benefits included more accurate, faster and transparent financial and inventory controls.</p> <p>Eduardo Quijano CPA Finance BRM Zimmer Biomet</p> <p><i>Mobile financials</i></p>	<p>4C: Get up and running on IoT services on HANA Cloud Platform</p> <p>Want to know how get up and running on the exciting new world of IoT services on HCP? This session, with the help of some special guests, will demonstrate how to enable and create an IoT service and start streaming the data. It will also show you how you can use the HCP tools to visualise your data stream.</p> <p>Chris Rae SAP Mentor, Technology, UX & UI5 Specialist D'Alrea Solutions</p> <p><i>IoT, HCP</i></p>	<p>4D: How ABAP push channels can improve the speed and accuracy of orders and deliveries in a fast paced manufacturing environment</p> <p>ABAP push channels are a cutting edge SAP technology which replace intensive constant polling with a publish and subscribe mechanism to receive messages from inside and outside your SAP system. Learn how this leading Australian building materials company used this technology to improve the speed of call centre processing and the accurate communication of sales orders to delivery dispatchers.</p> <p>Paul Hardy Technology author and Senior ABAP Programmer Hanson</p> <p><i>ABAP</i></p>	<p>4E: <i>Mini Workshop</i> In-depth look at Solution Manager 7.2 – discover new functionalities to better run your system (Part 1 – overview)</p> <p>Solution Manager 7.2 promises more pragmatic business process management, easier communication within your business and greater value through increased cloud adoption and use of in-memory technology. In particular, it is supposed to be ideal for running S/4HANA. SolMan guru Tony De Thomasis will take the covers off this new release to help you understand the actual benefits for your system and business needs, and how to get optimum value from the new functionalities</p> <p>Tony De Thomasis SAP Mentor, Technical Specialist, SAPWorks, Senior Lecturer in SAP Victoria University</p> <p><i>Solution Manager</i></p>	<p>4F: Maximising the value from SAP S/4HANA</p> <p>Join this session to hear an update on SAP S/4HANA and how local and global customers are gaining business value from their S/4HANA projects. Learn about the On premise and Cloud deployment options and how customers have taken advantage of these for fast time to value. Hear the latest on SAP's roadmap for S/4HANA and the 1610 On Premise release scheduled for October. Discover how your organisation can benefit from going down the S/4HANA path and where SAP can help you</p> <p>Paul Swain, S/4HANA GTM Lead SAP Australia</p> <p><i>S/4HANA</i></p>
3:25pm – 3:55pm	Afternoon Tea						

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HR & Payroll L3 Ballroom A	Breakout B Financials L3 Ballroom B	Breakout C Technology L4 Room 5	Breakout D Customer & Supplier L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovations L4 Room 1
3:55pm – 4:40pm	Breakout sessions 5	<p>5A: Workforce optimisation at the Australian Taxation Office</p> <p>This presentation will show how the Australian Taxation Office structures its HR data and uses its SAP system to optimise its workforce by enabling strategic workforce planning and workforce design. It will also show how SAP is being utilised to gain workforce insights through analytics.</p> <p>Gavin Wright Director Workforce Planning Australian Taxation Office</p> <p><i>Workforce planning</i></p>	<p>5B: Understanding the hidden value in the new SAP BusinessObjects Licensing Model</p> <p>Are you running an EDW environment and struggling with poor performance? Then this session is not to be missed. Filled with live demonstrations, walk through the journey that you go through to migrate one of your existing Enterprise Data Warehouse databases onto SAP IQ, SAP Data Integrator and SAP PowerDesigner. This session is relevant for existing or potential new SAP BusinessObjects customers looking at leveraging the new licensing model.</p> <p>Clint Vosloo SAP Mentor & Managing Partner EV Technologies</p> <p><i>BO licencing models</i></p>	<p>5C: Building a HCP application – the tips and tricks you should know</p> <p>The HANA Cloud Platform (HCP) provides a great amount of power, flexibility to build Cloud applications. Chris will show you:</p> <ul style="list-style-type: none"> • What is HCP and where is it used? • When you should and shouldn't think about HCP for extending your solution • Real life HCP extension scenarios: examples of extensions/ products • How is it licensed? What can I do to avoid confusion? • How long to develop and is it expensive? • How to do it? Skills needed for in-house HCP development <p>Chris Paine SAP Mentor and Chief HR Geek Discovery Consulting</p> <p><i>HCP apps</i></p>	<p>5D: Burn the books! - how Rawson Homes developed a better system for issuing goods & services orders in the field.</p> <p>Rawson Homes needed a better way enable field staff to issue adhoc orders for goods and services during the house construction and warranty stages. Around 1000 manual purchase orders per month were being hand written on triplicate carbon pads and then sent to the finance team for manual data entry and validation. Additionally there was little or no formal approval process. This session will discuss:</p> <ul style="list-style-type: none"> • How Rawson analysed the problems and determined the potential solutions • What was implemented • The final outcome and benefits <p>Matt Gardiner Head of IT Rawson Group</p> <p><i>Mobile purchase orders</i></p>	<p>5E: <i>Mini Workshop</i> In-depth look at Solution Manager 7.2 – discover new functionalities to better run your system (Part 2 – Deeper Dive)</p> <p>In part 2 of this mini workshop, Tony will go deeper into the functionalities of Solution Manager. Through demonstrations he will help you learn the latest tools and processes to reduce support costs and drive innovation. He will also advise on the best deployment options and innovations that you can take advantage of right away.</p> <p>Tony De Thomasis SAP Mentor, Technical Specialist, SAPWorks, Senior Lecturer in SAP Victoria University</p> <p><i>Solution Manager</i></p>	<p>5F: SAP HANA Cloud Platform - Enabling digital transformation with APIs and SAP API Management</p> <p>Securely share your digital assets, processes, and information with developer communities – using SAP HANA Cloud Platform, API management. Easily share digital information with developers, run real-time analytics and reporting on usage metrics – and improve customer, partner, and employee engagement.</p> <p>Murali Shanmugham Application Architect SAP Australia</p> <p><i>HCP API</i></p>
4:40pm – 4:45pm		Transition					

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HR & Payroll L3 Ballroom A	Breakout B Financials L3 Ballroom B	Breakout C Technology L4 Room 5	Breakout D Customer & Supplier L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovations L4 Room 1
4:45pm – 5:30pm	Breakout sessions 6	<p>6A: Building an end-to-end injury and compensation management system...all in SAP!</p> <p>The NSW Police Force has developed comprehensive compensation management systems with its existing SAP solutions. David will discuss the functionalities of the system including reporting of an injury, investigation, injury case management, compensation payment, and recouping payments from the insurer. He will also explain the modifications to the payroll schema, linkage from the case management system to leave and payroll, document management, and work flow.</p> <p>David Caldwell Manager Workers Insurance NSW Police Force</p> <p><i>Incident Management</i></p>	<p>6B: IBCS – How you can adopt a Global Standard for Reporting to benefit your organisation</p> <p>Increasingly BI vendors such as SAP are incorporating IBCS functionality in their solutions. International Business Communication Standards (IBCS) is a globally accepted set of guidelines for conceptual, perceptual and semantic design of charts and reports. This session will cover the fundamentals of IBCS and how it can be adopted in your company to provide a template for the efficient communication of important business data.</p> <p>Associate Professor Paul Hawking SAP Mentor & SAP Program Director Victoria University</p> <p><i>Reporting</i></p>	<p>6C: S/4HANA – what you need to know about the latest functionalities</p> <p>Explore how S/4HANA fully leverages the performance and simplification capabilities of SAP HANA and delivers a modern, personalised, and simple SAP user experience that can run on any device. Also see how it provides instant insights on any data using S/4HANA Embedded Analytics.</p> <p>Alexandra Carvalho SAP Mentor, Senior Director & Head of Analytics BI Group Australia</p> <p><i>S/4HANA</i></p>	<p>6D: Warehouse management with voice technology at Viridian Glass</p> <p>Viridian glass recently delivered significant business improvements through the practical and pragmatic implementation of Voice technology across their business. The biggest challenge and benefit was OH & S and worker safety issues in ensuring a safe and compliant business process across warehousing operations from inbound to outbound activities. Hear Viridian’s perspectives on project experiences, what lessons were learnt and what were the tangible outcomes of implementing voice technology direct to SAP.</p> <p>Justin McKenzie Warehouse & Distribution Manager & Irfan Fundolly Supply Chain Lead, Viridian New World Glass (CSR)</p> <p><i>Warehouse management</i></p>	<p>6E: Fiori everything with mobile access at Hydro Tasmania – Let’s do it, and in 3 months</p> <p>Hydro Tasmania quickly realised that Fiori (including Personas) could be used as an enabler and alternative to SAP Business Client and SAPGUI for a large number of users to drive more engagement and efficiency using SAP. With this vision in mind, Hydro couldn’t just go with a Fiori Launchpad containing a few Fiori apps so they decided to build an ESS/MSS alternative that included the new My Inbox with a combination of existing self-service functionality and available Fiori apps. See a live demo and hear about Hydro’s journey so far.</p> <p>David Shields Corporate Solutions Manager, Hydro Tasmania & Matt Harding SAP Mentor & UX Specialist</p> <p><i>Fiori implementation</i></p>	<p>6F: Harness the Internet of Things with a Cloud Platform</p> <p>Discover how the Internet of Things, Industry 4.0, and the industrial Internet are transforming approaches to product design, manufacturing, and aftersales service. Examine the elements for success in building business models that support connected manufacturing, connected products, and solution delivery in the digital economy.</p> <p>Malcolm Yeoman Solution Architect, Technology & Database Specialist SAP Australia</p> <p><i>Internet of Things</i></p>
5:30pm – 7:00pm	Networking drinks in the Exhibition area						

SAUG National Summit 2016 | Agenda

Day 2 | Tuesday, 6 September

Time	Session type	Breakout A HCM L3 Ballroom A	Breakout B Financials – Data, GRC L3 Ballroom B	Breakout C Technology – Solutions & Applications L4 Room 5	Breakout D User Experience L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovation L4 Room 1
9:00am – 9:45am	<p>International Keynote: Disrupting digital business</p> <p>As we shift from a products and services economy to experiences and outcome, digital transformation ultimately demands that organisations focus their attention on keeping promises and interacting even when they don't control the conversation. Master strategist, Ray Wang will share the results from his extensive research and advising global organisations and show you how to ride the waves of change. He will analyse trends including consumerisation of technology, the new C-suite and data driven decision making and explore the impacts on your business as well as how SAP technology is changing to face these challenges.</p> <p>Ray Wang, Advisor, Author, Founder, Chairman and Principal Analyst, Constellation Research (USA)</p>						
9:45am – 10:30am	<p>Keynote: (Platinum Sponsor) Simply better business with digital</p> <p>Stuart, who is recognised as a thought leader and one of the top 10 most influential people in the SAP Ecosystem, will share his insights from recent SAP showcase events about how SAP's digital technologies lift operational achievement and deliver improved customer outcomes.</p> <p>Stuart Dickinson, Chief Executive Officer, UXC Oxygen</p>						
10:30am – 11:00am	<i>Morning break</i>						

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HCM L3 Ballroom A	Breakout B Financials – Data, GRC L3 Ballroom B	Breakout C Technology – Solutions & Applications L4 Room 5	Breakout D User Experience L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovation L4 Room 1
11:00am – 11:45am	Breakout sessions 7	<p>7A: Newcrest Mining go for gold by using the latest tools and techniques to drive user adoption</p> <p>User adoption is the key to generating return on your SAP investment. However, according to a recent survey, lack of user adoption is a major challenge for large scale SAP projects and one of the key factors for project success or failure. In this session Newcrest Mining share their user adoption strategy and how they use SAP Productivity Pak to create eLearning simulations and other content for software adoption, training, and enterprise-wide knowledge sharing. With record-once/publish-many technology Newcrest Mining are able to easily and quickly capture or document knowledge and distribute content to employees at the point of need, in the right language, and in the right format.</p> <p>Dharmesh Chandra SAP Training Lead Newcrest Mining Limited</p> <p><i>User adoption</i></p>	<p>7B: Keeping test systems relevant in the age of disruption</p> <p>Fairfax Media, the innovative and digitally progressive ANZ media company, faced challenges in keeping its SAP ERP test landscape aligned to a rapidly evolving business. Hear how Fairfax are able to slice through their large and complex production environments and find out how they quickly build relevant test, training and sandbox systems. Finally, learn how they ensure these systems are aligned to a diverse Finance organisation.</p> <p>Mike Goldsworthy Financial Systems Delivery Manager Fairfax Media</p> <p><i>Test systems</i></p>	<p>7C: Re-think your business – modernise your infrastructure with SAP HANA and Hewlett Packard Enterprise</p> <p>Modernising SAP or moving to HANA can help you better compete in the digital economy by simplifying business processes, delivering real-time insights and reducing complexity. To maximise the benefits of SAP modernisation and SAP HANA, you need an infrastructure that offers high performance, scalability and reliability. In this session Nigel O’Neill, from the Office of State Revenue QLD and Benny Low from HPE, will share their journey and experience on how your business can gain a new competitive edge with a strong portfolio of deployment options, migration, consulting and support services</p> <p>Nigel O’Neill Manager Program Office & Security, Office of State Revenue QLD & Benny Low Senior Solutions Architect Hewlett Packard Enterprise Australia</p> <p><i>HANA deployment</i></p>	<p>7D: International SAP User Experience and Fiori Strategy and Roadmap</p> <p>This session will lay out the latest updates for SAP’s UX strategy and technologies including S/4HANA, and will reveal the latest developments and future directions of SAP Fiori’s concept, design language and UX guidelines. Michael, who is the global UX Chief Product Expert, will also share some tips, tricks and best practices on usage of tools and technologies and help you to adopt successfully and scale with SAP Fiori.</p> <p>Michael Falk Chief Product Expert - User Experience & Fiori Product Management, Global Design & Jan Ruessel, Product Manager UX & Fiori, SAP SE (Germany)</p> <p><i>UX, Fiori strategy</i></p>	<p>7E: International Why Foodstuffs South Island chose IBM POWER for SAP HANA</p> <p>Foodstuffs are a true Kiwi success story, having grown from humble beginnings to become one of New Zealand’s largest and most thriving businesses. Darren Rasmusen takes you through the Foodstuffs SI SAP HANA journey - the IT problems they were experiencing; the end goals they wanted to achieve; the options considered for HANA deployment; why they ultimately selected IBM POWER Hardware for HANA; and the rapid success achieved to date with SAP HANA BW, ECC and Transport modules, by running HANA on POWER.</p> <p>Darren Rasmusen IT Infrastructure Manager, Foodstuffs South Island, New Zealand</p> <p><i>HANA hardware</i></p>	<p>7F: What will the digital supply chain look like tomorrow?</p> <p>Blockchain, Cloud, 3D Printers, Big Data, Digital Disruption. What will this connectivity mean for organisations today that need to stay ahead of the curve?</p> <ul style="list-style-type: none"> • What does supply chain integration and technology convergence mean for your future readiness? • What more can we see over the horizon? • What do we need to know? • Are you ready for what’s next? • How we can collaborate to define Now & Future State? <p>Lorraine Longato Director Value Engineering, ANZ, Procurement & Business Network, SAP Australia</p> <p><i>Procurement</i></p>
11:45am – 11:50am		<i>Transition</i>					

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HCM L3 Ballroom A	Breakout B Financials – Data, GRC L3 Ballroom B	Breakout C Technology – Solutions & Applications L4 Room 5	Breakout D User Experience L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovation L4 Room 1
11:50am – 12:35pm	Breakout sessions 8	<p>8A: Moving to Cloud HR – overcoming security and other challenges</p> <p>Moving to a Cloud HR system brings certain challenges especially security concerns. Colleen has experience with assisting large organisations moving to Cloud HR Systems such as SuccessFactors and in particular has worked on addressing security issues. In this presentation she will give an overview of security issues and the Success Factors Security Model. As well as a high-level comparison with SAP Security. She will also share valuable lessons learned and tips on how to approach a Cloud HR migration project.</p> <p>Colleen Hebbert SAP Mentor & SAP Security & GRC Consultant</p> <p><i>Cloud HR, Security</i></p>	<p>8B: How Dimension Data manages all of its expense report capture, expense audit and fraud detection with Concur</p> <p>Dimension Data has been using Concur to manage all its expense report capture, expense audit and fraud detection. Come along to this session to understand:</p> <ul style="list-style-type: none"> How was the business case for Concur developed? Implementation experiences both planned and actual Lessons learned from the implementation Additional benefits and usage experiences <p>Mark Miller Chief Information Officer Dimension Data</p> <p><i>Expense Management, Concur</i></p>	<p>8C: The Woolworths HANA journey – getting the infrastructure right</p> <p>This in-depth technical presentation will focus on the HANA infrastructure at Woolworths. Points discussed will include:</p> <ul style="list-style-type: none"> HANA infrastructure options & upgrade considerations Stability & capacity challenges Lessons learnt from upgrading & testing Hana <p>Laurence Bennett Head of SAP Application Technology Woolworths</p> <p><i>HANA infrastructure</i></p>	<p>8D: International SAP Fiori Elements, SAP UI5 and SAP Web IDE – the simple way to build and extend Fiori applications</p> <p>Learn how to efficiently develop responsive SAP Fiori applications leveraging SAPUI5 and the SAP Web IDE, the new web-based development environment. This holistic tool enables users to design, build, and deploy responsive SAPUI5 apps with Fiori UX by using templates, WYSIWYG, code editor, and much more. Learn about the SAP Fiori Elements concept and why this approach tremendously increases the development efficiency and maintainability while ensuring UX consistency. In addition you will learn about the flexibility concepts to extend apps built with Fiori elements.</p> <p>Michael Falk Chief Product Expert - User Experience & Fiori Product Management, Global Design & Jan Ruessel, Product Manager UX & Fiori, SAP SE (Germany)</p> <p><i>Fiori Elements, apps</i></p>	<p>8E: International The future of customer experience and the implications for SAP solutions</p> <p>Few areas have been changed as dramatically by technology as the relationship with your customers. Ray will distil his vast global experience advising major international companies and making sense of SAP developments and general innovations to give you a critical insight into what customer engagement solutions you should be looking at and how to get the best from your existing and upcoming SAP solutions to optimise how your organisation is connected to its customers.</p> <p>Ray Wang, Advisor, Author, Founder, Chairman and Principal Analyst Constellation Research (USA)</p> <p><i>Customer Experience</i></p>	<p>8F: Digital Enterprise Platform update – SAP HANA and location data</p> <p>Join this session for a high level overview of the new SAP HANA SPS 10/11 features and best practices. SAP is delivering a completely new experience in solving the day-to-day challenges of Hadoop by enabling "OLAP" style Enterprise Analytics and Interactive SQL on Hadoop data utilizing SAP HANA Vora. Learn how the solution delivers much needed integration for corporate data with Data Lakes and how it builds a simple yet powerful platform that removes complexity out of Hadoop & Apache Spark.</p> <p>Viren Joseph Centre of Excellence – Database & Technology, SAP Australia</p> <p><i>HANA, location data</i></p>
12:35pm – 1:35pm	Lunch						

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HCM L3 Ballroom A	Breakout B Financials – Data, GRC L3 Ballroom B	Breakout C Technology – Solutions & Applications L4 Room 5	Breakout D User Experience L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovation L4 Room 1
1:35pm – 2:20pm	Breakout sessions 9	<p>9A: Cost-effective solutions for executive decision making – utilising SAP HR and Machine Learning technologies</p> <p>The Airbus Group will show how it is combining various SAP modules with new machine learning tools to provide deep analytics capabilities that are vital to the day-to-day operations of the business. From the initial process of data preparation and transformation, through to the final stages of modelling, visualisation, and optimisation of predictive solutions, this provides a unique platform for the development of cost-effective business solutions that are rapidly deployed.</p> <p>Michael J Choudhury Manager, Business Solutions, Airbus Group Australia Pacific</p> <p><i>Machine learning</i></p>	<p>9B: SAP BusinessObjects Cloud using your on-premise data</p> <p>In this live demo heavy session you will learn how to use the SAP BusinessObjects Cloud to access data assets sitting on your premises.</p> <p>Clint Vosloo SAP Mentor & Managing Partner EV Technologies</p> <p><i>BO Cloud</i></p>	<p>9C: Developing in house SAP support capability – The Hydro Tasmania experience</p> <p>Hydro Tasmania went live with SAP in 2013 and struggled to get the support model working efficiently or effectively, so it was decided that insourcing would better suit requirements. David will discuss the many lessons learned, why the existing outsourced model didn't work, how the change was achieved without any major technical issues and the end users were not negatively impacted. Hydro now has a small team delivering a much higher level of benefits and improvements to the business at a much lower cost.</p> <p>David Shields, Corporate Solutions Manager, Hydro Tasmania</p> <p><i>In house support</i></p>	<p>9D: Guerrilla UX Design: How to engage with real users in the face of adversity</p> <p>Let's face it, User Experience design can be costly but in the long run leaving it out could cost you a whole lot more. While many organisations are starting to realise the benefits of UX design, getting the right amount of support and time can be hard. This session looks at ways you can engage with real end users quickly and inexpensively. If you are looking for ways to bring UX design to your work but you don't necessarily have a lot of time, money or support then this is the session for you.</p> <p>Simon Kemp SAP Mentor & National Solution Lead – SAP UX, Plaut IT</p>	<p>9E: International IT Security part 1: Understanding Cloud security and compliance</p> <p>Cloud security is a matter of building trust however it's easier said than done when there is often little visibility around what is the actual role of the Cloud provider and where your data is stored to name a few. This exclusive session will go a long way towards helping you understand Cloud security, build trust and enable you to make the best decisions. Our expert presenter will:</p> <ul style="list-style-type: none"> Give you an overview of Cloud Cyber security and developing a holistic approach Help you understand the SAP Cloud and the various delivery and deployment models <p>Gerlinde Zibulski Head of SAP Security Product Management & SAP Fellow SAP SE</p> <p><i>Cloud Security</i></p>	<p>9F: Improving collaboration and business outcomes with SAP Integrated Business Planning</p> <p>Effective supply chain planning is necessary to meet (and exceed) rapidly increasing stakeholder expectations. A collaborative planning solution that is shared by finance, sales, marketing, and supply chain ensures consistency and faster decision making. Learn about SAP Integrated Business Planning (IBP), the cloud-based solution that supports collaborative and fact-based planning processes, and links the outcomes of those planning processes back to core execution systems.</p> <p>Adam Peanna Senior Extended Supply Chain Solution Specialist, SAP ANZ</p> <p><i>ESCM</i></p>
2:20pm – 2:25pm	<i>Transition</i>						

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HCM L3 Ballroom A	Breakout B Financials – Data, GRC L3 Ballroom B	Breakout C Technology – Solutions & Applications L4 Room 5	Breakout D User Experience L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovation L4 Room 1
2:25pm – 3:10pm	Breakout sessions 10	<p>10A: The SAP world of HANA and Fiori - Do you have the right skills in your team to succeed and if not, how do you get there?</p> <p>Compared to 10 years ago, SAP's world is radically different due to their investment in mobility, cloud, in-memory, analytics, UX Design and Design Thinking. The problem is how do you really benefit from the innovation in this space and invest in the right technologies to solve your business problems/opportunities. This session will discuss the various paths that you should start to explore within your organisation in order to build agile innovative solutions around a stable (digital) core that the business will feel engaged with. There's no silver bullet for any of this, but there are roadblocks you can definitely avoid that will be discussed.</p> <p>Matt Harding SAP solution & UX specialist, SAP Mentor</p> <p><i>HANA, Fiori skills,</i></p>	<p>10B: Implementing HANA as a sidecar</p> <p>Hydro Tasmania has started their Hana journey by implementing a SAP Hana Sidecar. They are delivering BI reporting via Hana and moving their reporting landscape from BW/ BOBJ to Hana. They have also implemented new reporting tools including analysis excel, and SAP Lumira. Alicja will explain how the new environment has helped her team deliver better and faster reports particularly in the GRC area, whilst also enabling business users to access data for themselves and create their own data visualisations. She will share some key tips and tricks to help you with your journey.</p> <p>Alicja Mosbauer a/g Information and Analytics Manager Hydro Tasmania</p> <p><i>HANA sidecar</i></p>	<p>10C: AGL bringing SAP data onto Big Data Platform - challenges & achievements</p> <p>AGL has been a leader in its use of SAP HANA, analytics and Big Data. Ravi will discuss how AGL is currently developing a comprehensive Big Data platform to capture all SAP and Non SAP data. Focusing on the implications for SAP data he will share insights into the challenges and learnings from this project and will give you valuable tips on how you can start benefiting from one of your most valuable resources – data.</p> <p>Ravi Kalidindi Manager Data Architecture & Technology AGL Energy</p> <p><i>Big Data capture</i></p>	<p>10D: How to design complex applications in Fiori</p> <p>Building your own apps in SAP Fiori? Chris will review complex Fiori application design and the next level of detail you need to consider. He will focus on:</p> <ul style="list-style-type: none"> Identifying your UX needs Implementing a custom UX renovation plan Architectural designs and decisions that need to be made Tips to use on your project Best practices <p>Chris Rae SAP Mentor, Technology, UX & UI5 Specialist D'Alrea Solutions</p> <p><i>Designing Fiori apps</i></p>	<p>10E: IT Security part 2: SAP Enterprise Threat Detection</p> <p>Not a day goes by without a major security attack or breach being reported in the media. In this deep dive session you will discover how you can identify attacks on your business systems with critical data in real time. You will learn how to analyse threats quickly enough to neutralise them before serious damage occurs, and how to work on historic data for great insights. See demos to analyse data and create your own patterns to auto-detect attacks. The SAP Enterprise Threat Detection application utilises the real-time power of the SAP HANA platform to help you identify and analyse threats from hackers who are intent on causing serious damage.</p> <p>Gerlinde Zibulski Head of SAP Security Product Management & SAP Fellow SAP SE</p> <p><i>Enterprise threat detection</i></p>	<p>10F: The future of Cloud HR Technology - Intelligent services</p> <p>HR is continuing to transform to be a strategic enabler of business success, supporting the people across the organisation. Intelligent services is the next-generation approach to self-services and leverages technology to remove complexity from typical HR events. End users are empowered to do more on their own, without the need to rely on HR Shared Services to do it for them.</p> <p>Marc Havercroft VP HR Digital Strategy & Transformation SAP Australia & Naomi Benjamin, HR Technology Advisor, SAP SuccessFactors</p> <p><i>Intelligent Services</i></p>
3:10pm – 3:40pm	Afternoon break						

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HCM L3 Ballroom A	Breakout B Financials – Data, GRC L3 Ballroom B	Breakout C Technology – Solutions & Applications L4 Room 5	Breakout D User Experience L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovation L4 Room 1
3:40pm – 4:25pm	Breakout sessions 11	<p>11A: Using social tools to accelerate change in your projects</p> <p>Many people use a variety of social media to "stay in the know" and to "be connected". But organisations are still coming to terms with how to leverage the benefits of these tools for internal collaboration. Using real examples in the implementation of a major SAP project at Woolworths Limited, Greg will show how you can hit the ground running when you integrate social into your change management plan including:</p> <ul style="list-style-type: none"> • Top challenges in any change project and how social tools can help • Clarifying your purpose for using social tools and measuring effectiveness • Tips for managing the interactions • Insights that you can't get through traditional mediums <p>Greg Taylor HCM Change Manager Woolworths</p> <p><i>Change Management</i></p>	<p>11B: Data migration and MDM for a smoother global SAP rollout</p> <p>Dimension Data has been rolling out a single global instance of SAP as part of its simplification program. Mark will discuss how a shared service Master Data Management (MDM) arrangement was set up to support this operational model. He will discuss:</p> <ul style="list-style-type: none"> • Data migration strategy, planning & resourcing • Data migration from multiple instances to single instance • Data harmonisation & de-duplication • Data validation • MDM as a service <p>Mark Miller Chief Information Officer & Jane Swoboda Global Deployment Director, Dimension Data</p> <p><i>Data migration, MDM</i></p>	<p>11C: Utilising next generation analytics with BusinessObjects Cloud</p> <p>SAP BusinessObjects Cloud is a new generation of Software-as-a-Service (SaaS) that redefines Analytics by providing all Analytics capabilities for all users in one product. This presentation will show you how you can get the answers you require, whether in one line of data or a billion. Report the past, analyse the present, predict the future, and never take no for an answer. Unify Business Intelligence, Planning and Predictive Analytics in one platform.</p> <p>Alexandra Carvalho SAP Mentor, Senior Director & Head of Analytics BI Group Australia</p> <p><i>BO Cloud</i></p>	<p>11D: International SAP Fiori Launchpad – overview, recommendations and latest updates</p> <p>SAP Fiori launchpad is the strategic single point of entry for SAP business applications and analytics. It offers a role-based, personalised and real-time access for end users. This session provides an overview of benefits, key capabilities, configuration, integration and extensibility options. You will get insights on the product roadmap and how the Fiori 2.0 design concepts will impact SAP Fiori launchpad in future releases.</p> <p>Michael Falk Chief Product Expert - User Experience & Fiori Product Design SAP SE (Germany)</p> <p><i>Fiori Launchpad</i></p>	<p>11E: Standing on the shoulders of giants - being a good open source citizen and the implications for SAP systems</p> <p>This presentation will look at why big companies like SAP are betting big and building on a foundation of open source software (OSS). The question then is, as customers of software built on Open Source what do we need to know and what do we need to look out for? John is someone who contributes to and maintains various open source projects so he can provide a unique perspective into the processes and social etiquettes of contributing and accepting contributions to open source software and what it takes to be a good open source citizen.</p> <p>John Patterson SAP Mentor, SAPUI5 and Gateway Specialist</p> <p><i>Open Source software</i></p>	<p>11F: Continuous performance management – optimizing workforce and business outcomes</p> <p>Individuals have a new attitude towards work, organisations are at a crossroads with digital natives driving social media and change is occurring within what were once the fundamentals of performance management. See how continuous performance management makes sense to drive commercial outcomes, engage employees and deliver the right outcomes for both the individual and organisation.</p> <p>Russell Porter Business Transformation Advisor SAP SuccessFactors</p> <p><i>Performance Management</i></p>
4:25pm – 4:30pm	Transition						

SAUG National Summit 2016 | Agenda

Time	Session type	Breakout A HCM L3 Ballroom A	Breakout B Financials – Data, GRC L3 Ballroom B	Breakout C Technology – Solutions & Applications L4 Room 5	Breakout D User Experience L4 Room 4	Breakout E Optimising SAP L4 Room 3	Breakout F SAP Innovation L4 Room 1
4:30pm – 5:15pm	Breakout sessions 12	<p>12A: Optimising user performance ...with Fiori Accessibility Make the most of your workforce by getting unnecessary productivity barriers out of their way. Accessibility guidelines are best practices for creating effective user experiences that support a wide range of human abilities. Learn how to create a better UX for all your employees; broaden your choice of new recruits; reduce absenteeism; and retain your people longer.</p> <p>Jocelyn Dart SAP Mentor & UX Specialist SAP Australia</p> <p><i>Fiori, accessibility</i></p>	<p>12B: DuluxGroup – Delivering ERP to PNG with Business by Design DuluxGroup needed to deliver an ERP system to its subsidiary in PNG. However, overheads had to be kept down and an easy to use standardised system was required that could be used across other subsidiaries with standard processes. Hear how SAP Business By Design was able to fulfil these requirements and how you can roll out lower cost, simpler ERP systems to your subsidiaries and business units.</p> <p>Paul Hobbs Senior SAP FICO Consultant DuluxGroup</p> <p><i>Business by Design</i></p>	<p>12C: Learning SAPese: A strange foreign language Do you know what the SAP Business Network is or Kxen? If not, this session is for you. The SAP world is full of confusing terminology and brand names which continually change. This session will involve a panel of experts who will be asked to explain different SAP terms in 45 seconds so if you are confused by SAP terminology, as many of us are, then this session is for you!</p> <p>Associate Professor Paul Hawking, SAP Mentor & a selected panel of SAP Mentors and experts.</p> <p><i>SAP terminology</i></p>	<p>12D: Testing SAPUI5 – Does your custom SAP Fiori app have a foundation of tests You know you should be testing but you aren't because well... that new feature has to be in production yesterday. Getting started on a testing discipline can be challenging. In this session Nigel James will take you through approaches for testing your SAPUI5 codebase. We will cover:</p> <ol style="list-style-type: none"> 1. Qunit 2. Selenium 3. Integrating testing with building and deploying workflow as well as a high level scope for why you need to test. Come to this session to get started on your testing journey. <p>Nigel James SAP Mentor Alumni & Principal Consultant Squarecloud</p> <p><i>Testing, UI5</i></p>	<p>12E: How to use a simplification database to migrate to S/4HANA Paul probably knows more than most about what is required to migrate to S/4HANA – in fact he is writing a book about it. Here he will discuss some of the things you should consider around your database and data including the so called “simplification database”, extracting code from your current system, running various batch jobs and more. He will also look at the big list of everything you need to change if you want to migrate to S/4 HANA.</p> <p>Paul Hardy Technology author and Senior ABAP Programmer Hanson</p> <p><i>S/4HANA migration</i></p>	<p>12F: Discover how you can get started on your Journey to SAP S/4HANA Understand the latest innovations and updates from SAP regarding the next generation Business Suite S/4HANA. In this session we will cover a number of topics including: Deployment Options for both On-Premise and Cloud, Core Capabilities and Suite Options to help digitalise your business, understand SAP Best practices, and conversion tools and accelerators to help you get started on your journey to SAP S/4HANA.</p> <p>Kevin Richardson Presale Lead Enterprise Architect SAP Australia</p> <p><i>S/4HANA</i></p>
5:15pm	Event concludes						

SAUG National Summit 2016 | Agenda

SAP Partner Innovation Lifecycle Services Sessions

SAP Partner Innovation Lifecycle Services ([PLS](#)) provides partners with an end-to-end support for Co-Innovation from ideation phase to market introduction of the product. We act as trusted advisor during the Innovation Lifecycle, offering the Right Services to the Right Partners at the Right Time. Through our objective to work with partners globally, we continue our focus on the ANZ region and look forward to engaging with ANZ partners.

At the [SAUG National Summit](#) on 5th – 6th September 2016, PLS will have a presence on two consecutive days. On September 6th, we will host sessions at the event to share our integrated service offerings for partners. SAP Integration and Certification Center (SAP ICC), as part of PLS, will also present its latest solution certification offerings around IoT, HCP and S/4HANA.

Location: Level 1, [Hilton Hotel, Sydney](#)

Agenda [September 6th]:

- PLS Keynote
- PLS Services – Deep Dive
- What's in it for Partners to work with us?
- SAP Solution Certification – Latest offerings

Please Note

The speakers and topics on this agenda are subject to change. For further details about this agenda or about presenting at any SAUG events please contact: michael.kovacevic@saug.com.au

Continuing Professional Development (CPD) Hours

The **HR Stream** within the SAUG National Summit conforms to Australian Human Resources Institute (AHRI) requirements for gaining Continuing Professional Development (CPD) hours. AHRI members who attend the HR Stream can count the time attended as part of their CPD hours. [More information](#)

The **LOB Breakout Streams** within the SAUG National Summit conform to Australian Computer Society (ACS) requirements for gaining Professional Development (PD) hours. ACS members who attend the general streams can count the time attended as part of their PD hours. [More information](#)
